

**WATER TOMORROW**  
**2020 Integrated Resources Plan**

## IRP and UWMP Update

### Member Agency Manager Meeting

November 13, 2020

1

## OVERVIEW

- SWP Delivery Capability Report (Chandra Chilmakuri, State Water Contractors)
- USBR Colorado River Modeling Assumptions (Laura Lamdin)
- Preliminary Results for UWMP and IRP Scenarios (Demetri Polyzos)

2

2

## IMPORTED SUPPLY ASSUMPTIONS IN THE IRP AND UWMP – TAKEAWAYS AND CONSIDERATIONS

- Any assessment of future reliability and supplies are based on modeled results with specific assumptions
- UWMP – Reliability assessment will use DWR and USBR modeling results and document the underlying assumptions
- IRP Scenarios – Using DWR and USBR modeling framework, analysis will include different underlying assumptions of key drivers (eg. climate change, regulatory conditions, etc.)
