

THE METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

# PIPELINE IMPROVEMENTS

## COMING TO YOUR NEIGHBORHOOD

The Metropolitan Water District of Southern California will be working on a major water pipeline project in your community. Metropolitan is relining the Second Lower Feeder, a critical pipeline in Southern California's regional water system. This project is necessary to ensure that we can continue to provide reliable water supplies to our 26 member public agencies serving 19 million people. Construction is estimated to last until July 2018. The water supply to homes and businesses will not be impacted.

Second Lower Feeder, Phase 1

## Sites: Clark & Conant

### SECOND LOWER FEEDER PHASE 1

### Sites: Clark & Conant
