

Challenge Catch Up Opportunity Challenges 1-7

Due Tuesday, May 12

We realize students are busy with schoolwork and life events. We want to ensure students are not overwhelmed by allowing the opportunity to catch up on anything they missed but wanted to complete.

Catch Up Opportunity gives students another chance to submit responses to Challenges 1 thru 7.

- If you turned in something that was incomplete and you want to resubmit the response, you can do that under the Catch Up Opportunity
- If you didn't submit a response to a Challenge but want to do it now, you can do that under the Catch Up Opportunity.
- Catch Up Opportunity submissions will have a 20-point deduction.
- We will post reference sheets for Challenges 1 thru 4 on the Solar Cup webpage to assist students if they are stuck or unsure.

Challenges 1 thru 7 are on the Solar Cup webpage:

<http://mwdh2o.com/inthecommunity/education-programs/Pages/Solar-Cup.aspx>

If students get stuck on a question, feel free to email Julie your questions.

At the end of Solar Cup 2.0, our goal is to reward students who submit Challenge responses. We are working on how that will happen and what types of things will be offered under our current circumstances.
