METROPOLITAN GENERAL MANAGER’S STATEMENT REGARDING GOV. BROWN’S STATE-OF-THE-STATE ADDRESS

Jeffrey Kightlinger, general manager of the Metropolitan Water District of Southern California, issues the following statement regarding Gov. Jerry Brown’s State-of-the-State address today, during which he referenced the importance of the Bay Delta Conservation Plan:

“California’s long-term water problems cannot be solved without the vision and leadership from the state and federal governments. Gov. Brown’s solid commitment to addressing our water supply and environmental issues is precisely what we need at this critical time.

“The right plan and the right investments in the Delta will serve California well for the next 100 years. Metropolitan looks forward to working constructively with the state and federal leaders and other stakeholders to make this plan a reality.”
