Chairwoman Gloria D. Gray  
Metropolitan Water District of Southern California  
700 North Alameda Street  
Los Angeles, California 90012

**RE: SUPPORT Item 7-4: Delta Conveyance Project Funding**

Dear Chairwoman Gray and Board Members:

The Building Industry Association of Southern California (BIASC) is a non-profit, trade association focused on building housing for all. On behalf of our membership, we would like to express our support of the Metropolitan Water District of Southern California's (MWD of SC) continued efforts to fund the state's environmental review and planning process for the Delta conveyance project.

For over 90 years, BIASC has been the leading advocate for thousands of building industry leaders who are committed to a better future for California by building communities, creating jobs and ensuring housing opportunities for everyone. The State Water Project (SWP) supplies are Southern California's best source of reliable, high-quality and affordable water. Modernizing the aging SWP system that delivers this water is vital; it will help ensure we are better prepared for the effects of climate change and earthquakes and bring greater resilience to the Delta waterways and its ecosystem.

The building industry believes in an "all the above" solution to meet our water infrastructure needs. The Delta conveyance project is one of many steps we must take to ensure the region's water resiliency. Businesses are doing their part to actively diversifying their water dependence by developing local projects and investing in water efficiency. Governor Newsom's Water Resilience Portfolio prioritizes a one-tunnel Delta conveyance system as essential to ensuring reliable water for generations to come. To that end, the housing industry continues to support efforts that advance this project today and into the future. Reliable water for housing hinges on the successful operation that the proposed Delta project will provide.

For the many reasons outlined in this letter, we urge the Metropolitan's Board of Directors to move forward in funding the environmental review and planning process for the Delta conveyance project. Thank you for your continued leadership on this critical item. Should you have any questions, please contact BIA-LAV Vice President, Diana Coronado, at [dcoronado@bialav.org](mailto:dcoronado@bialav.org).

Sincerely,

A handwritten signature in black ink, appearing to read "DVC", is written over a light blue horizontal line.

Diana Victoria Coronado  
Vice President, BIA-Los Angeles/Ventura
