

# 2020 IRP Scenario Planning and Outreach

Integrated Resources Plan Item 3a April 28, 2020

#### Overview

- Activities to date
- 2020 IRP Roadmap
  - Whitepaper
- Identify relevant policy questions
  - Areas the 2020 IRP will address

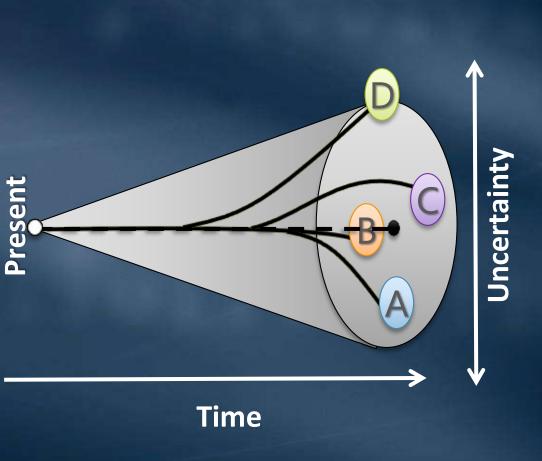

RP Committee Item 3a Slide 2 April 28, 2020

#### **Activities to Date**

- February 25 IRP Committee Mtg. Kick-off
  - Introduced scenario planning approach
  - Identified major policy areas
- March 24 IRP Committee Cancelled
- March 13 and April 17 MAM Meetings
  - Anticipated process and outcomes
  - Scenario planning roadmap
  - Stakeholder outreach approach
- April 28 IRP Committee Mtg.
  - Whitepaper

## Lessons from a 25-year Planning Cycle

"The future ain't what it used to be" - Yogi Berra

- The future is not predictable
- Drivers that influence the future are uncertain
- Drivers have significant impact on water supply reliability

P Committee April 28, 202

#### 2020 IRP – Policy Forward

Scenarios may stretch and pull at existing policies

**Established Policy Established Policy** Established Policy **Previous IRPs Established Policy** 

Policy **2020 IRP** Policy Policy Policy

RP Committee April 28, 2020

## 2020 IRP Roadmap

#### What do Drivers of Change Look Like?

Samples

70% of total southern California water demand

#### Residential Water Use

- Population
- Income levels
- Water use behaviors

#### Climate Change

- Precipitation patterns
- Temperature
- Sea level rise

IRP Committee

Item 3a Slide 7

April 28, 2020

2020 IRP Roadmap

# What does a Learning Scenario Look Like? Sample

"Water Supply Challenges in a World of Awareness"

Southern California's economy thrives over the next 25 years.

Develop narratives and quantitative assumptions that describe plausible futures

ail water tandards

Ifficiency,
sustained has been ing
supplies

are challenged by climate change, with the impacts of increased temperatures and decreased/changed precipitation pattern while increasing temperatures and changes in rainfall put increasing pressure on the remaining outdoor water use.

RP Committee Item 3a Slide 9 April 28, 2020

2020 IRP Roadmap

#### What does a Resource Mix Look Like?

- Analyze and quantify scenario elements
- Determine outcomes over the next 25 years
  - Supply, demand, and storage
- Evaluate resource mixes and actions against performance measures:
  - Reliability measures, cost measures, resiliency measures

# 2020 IRP Roadmap

# What does an Adaptive Management Strategy Look Like?

- Identify actions and outcomes that are common to many/all of the scenarios
- These actions can serve as the basis for the IRP implementation strategy

Slide 13 April 28, 202

#### What does an Adaptive Management Strategy Look Like?

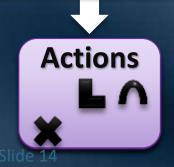

- Identify actions and outcomes that provide value to one or a few scenarios
- Develop signposts that signal when and how the IRP implementation strategy should be adjusted

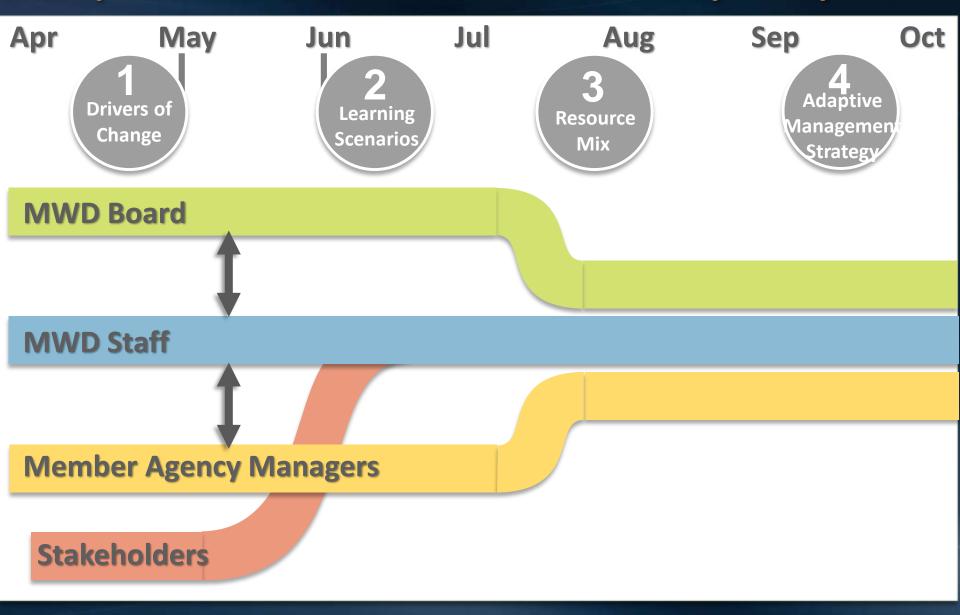

### Sequence of Activities and Key Players

# Proposed Outreach Schedule

All meetings designed for online participation

Apr May Jun Jul Aug

Apr 17 MA Managers meeting

May 5 MA Regional Urban Water Management Plan kick-off

May 13 MA Technical Staff workshop

May 15 MA Managers meeting

May 20 Stakeholder workshop

Jun 10 MA Technical Staff workshop

Jun 12 MA Managers meeting

Jul 15 MA Technical Staff workshop

Jul 17 MA Managers meeting

Aug 19 MA Technical Staff workshop

Aug 21 MA Managers meeting

Staff seeking and available for additional online outreach

RP Committee Item 3a Slide 16 April 28, 2020

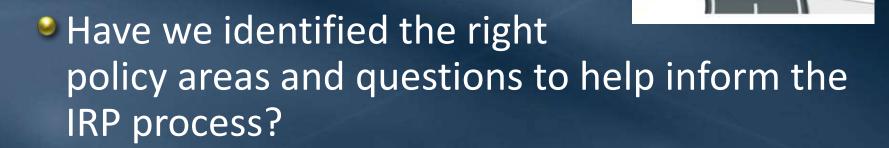

## 2020 IRP Roadmap Discussion

Questions/Comments/Observations

# Identify Key Policy Questions to Guide Us

Through the Process

Review of policy questions introduced at February IRP Committee Meeting

Why are these policy areas/questions of interest and important?

## Policy Questions

What level of water supply reliability should Metropolitan target for the region?

Should Metropolitan assume a new role in assuring that local agencies can fully access the regional network? (Resilience)

### Policy Questions (cont.)

What role should Metropolitan take in assisting the region to plan for and comply with water conservation legislation?

How should Metropolitan account for member agency local supply plans and incorporate potential Regional Recycled Water Program?

### Policy Questions (cont.)

As supplies and demand come into balance for the region, should Metropolitan continue to fund water efficiency and local projects at the same level as now? **Key Policy Areas** 

Reliability & Resiliency

Roles

Institutional

Cost

IRP Committee

Item 3a Slide 22

April 28, 2020

## Key Policy Areas – Reliability

Reliability goal initially set in 1996 IRP

100% Reliable 80% of the time
No more than a 20% cut 20%
of the time

100% Reliable under predictable hydrologic conditions

- We plan to bring different ways to address a reliability goal as part of this process
  - Has the implementation of the Water Supply Allocation Plan changed our opinions on what a reliability goal should be?
- Resiliency goal
  - What does this look like and how is it different from reliability?

#### Key Policy Areas – Institutional

- Metropolitan's approach to encouraging local supplies has evolved over the years
- How can Metropolitan influence these outcomes better in the future?
  - Do we continue to incentivize local supply programs?
  - Do we invest directly in local supply programs?

IRP Committee April 28, 2020

### Key Policy Areas – Cost

- IRP process will identify resource mixes and actions for each scenario
  - General cost information will be developed for each scenario
- We recognize the IRP effort will feed into the rate refinement process
  - Is the development of general cost information adequate? Is more needed?

RP Committee Item 3a Slide 25 April 28, 2020

## **Key Policy Questions**

Feedback

### **Next Steps**

- May IRP Committee
  - Refine key policy areas
  - Update on member agency discussions on drivers of change
  - Receive input on Drivers of Change

RP Committee Item 3a Slide 27 April 28, 2020
